## Education

### Maharaja Agrasen Institute of Technology

Nov 2022 – June 2026

B. Tech in Information Technology (CGPA: 8.3)

New Delhi, India

Arva Sr Sec School

April 2021 - June 2022

Class 12th

Haryana, India

Work Experience

DRDO SSPL Lab

July 2024 - Sep 2024

Web Development Intern

New Delhi, India

- - Developed an inventory management system using the MERN stack, allowing seamless product tracking and inventory updates.
- - Tested, debugged, and enhanced the website independently, ensuring smooth functionality and optimized performance.
- - Collaborated with senior developers to integrate advanced search and filter functionalities.
- - Designed and implemented a responsive user interface, ensuring accessibility across devices.
- - Documented development workflows and provided recommendations for future system improvements.

# **Projects**

Inventory Management System | React, Node.js, Express, MongoDB, Cloudinary, Multer, JWT, Redux

Repo Link

- - Designed and developed a full-stack inventory management system, enabling real-time product tracking and inventory updates.
- - Integrated JWT-based authentication for secure user login, profile management, and password recovery.
- Implemented data validation, error handling, and secure file uploads using Cloudinary and Multer for enhanced reliability.

BookSwap | MERN Stack, Firebase, Mongoose, Tailwind CSS, Material UI, React Hook Form, Redux Toolkit Repo Link

- - Created an intuitive book-swapping platform featuring real-time user notifications and a seamless user interface built with Tailwind CSS.
- - Engineered the platform to allow users to list, search, and borrow books, with Firebase integration for authentication and data storage.

File Sharing App | MERN Stack, Tailwind

Repo Link

- - Developed a secure file-sharing application that allows users to upload, share, and manage files efficiently.
- - Implemented responsive design using Tailwind CSS to ensure a consistent experience across all devices.

#### Skills

Programming Languages: C/C++, Python

Web Development: MERN Stack, HTML, CSS, Bootstrap, JavaScript, React JS, Tailwind CSS, Node.js, Express.js, REST

APIs

Backend Technologies: APIs, MongoDB, Mongoose, Firebase

Frontend Technologies: React Hooks, Redux-Toolkit, JSX, Material UI

Tools: Git/GitHub, VS Code, Sublime Text, DevC++, Postman

#### Online Profiles

</>> LeetCode
